Tamborine Mountain

Some say this is the green behind the gold, which makes the Gold Coast so seductive, and it's easy to see why Tamborine Mountain is in tune with tourists. Let's start with the rainforest, in the third oldest National Park in the world, which celebrates the remnants of the former Mount Warning volcano.

The walk

The walk departs directly from the Eco Gallery with a comprehensive array of Australian rainforest flora and fauna displays.

The walk takes approximately 45 minutes at a leisurely pace, when pausing to view the many points of interest and information along the way.

The entire walk totals 1.5 kms and is a combination of forest floor trails, 300 metres of high-tech steel bridges through the highest points of the upper canopy, and a 40 metre cantilever bridge that soars a breathtaking 30 metres above the creek and rainforest below.
