## • OVERVIEW •

### Mammoth Cave Single Cave Entry

This magical cave is a natural time capsule; home to ancient fossil remains of long-extinct giant animals. A fascinating audio tour is available in several languages. Mammoth Cave is the most easily accessed of all the show caves in the region, with wheelchair access into the first chamber.

---

## Mammoth Cave Single Cave Entry

---

Mammoth Cave is a self-guided cave, where visitors explore along the boardwalks and platforms, through the majestic chambers of the cave. This is much more than a cave - it is a complete nature experience.

Smaller groups of visitors will pick up an MP3 self-guided audio tour to get started; available in English, French, German, Malay and Mandarin.

Entering the cave through bushland via a gently sloping boardwalk, visitors quickly realise just how much there is to see here.

Over 10,000 fossils had at one time accumulated inside the cave; upon excavating, many of these were found to be remains of Australian Megafauna (giant animals) that became extinct around 46,000 years ago. There is even a 50,000-year-old 'zygomaturus' jawbone embedded in the cave wall.

After exiting the cave, there is the option of a walk along the beautiful Marri Trail. Visitors during the winter and spring months will see a stream flowing through the cave, with the water stained red from natural tannins.

### • POLICY •

#### Cancellation Policy

- If you cancel at least 7 day(s) in advance of the scheduled departure, there is no cancellation fee.
- If you cancel between 0 and 6 day(s) in advance of the scheduled departure, there is a 100 percent cancellation fee.
